**Subject: Concerns Regarding Burglary Investigation and Seeking Appropriate Action**

Dear Mr. Traub and Chief Lawson,

We are writing to formally address the burglary at my residence, 951 Netherwood Drive, Blue Bell, on **September 19, 2024**, at approximately 5:55 PM. We are deeply concerned about how this case has been handled thus far and seek appropriate justice for the crimes committed.

As advised by the District Attorney's Office, We are contacting the chain of command in Whitpain Township to share my concerns regarding the investigation. Enclosed is a copy of my prior correspondence with the Lieutenants at the Whitpain Township Police Department, which outlines the specific issues encountered during this case.

Since our last communication with the department, it has come to our attention that the Damaged Property Summary charge against Brent Bowers has been withdrawn. However, our property remains in disrepair; the lowest repair estimate I have received is approximately \$9,000. Additionally, while a harassment charge has been filed against Mr. Bowers, there has been no indication of a theft charge despite my dead wife's jewelry being stolen during the burglary.

In a conversation with Detective Tom Wittig two days after the burglary, We were informed that the perpetrators claimed they did not take any jewelry. We were left questioning why the testimony of individuals involved in criminal activity is being treated as credible over the evidence provided by the victim.

Moreover, Detective Wittig informed us that the District Attorney's Office was involved in the case, but this does not appear accurate based on current proceedings. Enclosed are appraisals and proof of ownership for some of the items stolen from my lockbox, which should warrant further involvement from the District Attorney.

It is especially troubling that the dropped charge against Mr. Bowers appears to sever any direct connection to his known accomplices, Jeffrey and George Cassera. This raises significant concerns as efforts are being made to shield these individuals from accountability. Given the circumstances, I am compelled to ask:

- Why has the District Attorney's Office not been more actively involved in prosecuting these severe crimes?
- Why are Jeffrey and George Cassera seemingly excluded from the investigation and potential charges?
- Is there an underlying reason—financial or otherwise—that has led to this perceived lack of accountability?

This situation is even more distressing in light of a prior incident at my home in 2019, where individuals were captured on camera damaging my property. Despite police response to that incident, no arrests or charges were made. This pattern of inaction erodes trust in the department's ability to protect the community and uphold justice.

I am requesting the following:

1. Both burglars should be held accountable with charges that reflect the gravity of their crimes.
2. The Assistant District Attorney, who was referenced by Detective Wittig, actively participated in this case.
3. The case should be reassigned to a County Detectives to ensure impartiality and thoroughness.
4. I Request a Continuance immediately to the Summary charges on December 18th at Blue Bell District Court.

Also, the community should be aware of the continued threat these individuals are to the community. Publicizing this case through appropriate Social Media and News Media channels would warn residents and reinforce trust in the department's commitment to community safety. We have some experience in this area and are willing to assist with such outreach efforts.

We hope to see a renewed focus on this case, addressing these concerns and ensuring justice for my family and community. Thank you for your attention to this matter. We look forward to hearing back from you soon via an email response.

Below is a small sample of the videos we have regarding this situation. We also sent the Liutenenants the attached letter. We sent them access to the videos of the robbery and the information packet we have been putting together regarding this situation to help us solve this crime together. You may have already been privy to this information because we have submitted this information to Whitpain Police multiple times, both in person and electronically, including in person the night of the robbery and the following day via email.

Sincerely,

Dr. Scott Testa
